“TAKING RESPONSIBILITY” – Re-Education, Training & Development!
Mr. Sean McWeeney QC, Chairman of the Constitutional Commission, other distinguished members of the Commission, members of the Secretariat, ladies and gentlemen, good morning.

On behalf of Civil Society Bahamas, I wish to thank the Commission for inviting us to address the matter of Constitutional Reform for The Bahamas.

Our approach in making this representation is one of “Taking Responsibility”, while expressing concern for an environment and atmosphere of “Distress, Debt & Discontentment” through the operational theme of Civil Society Bahamas which is “Re-education, Training & Development” – a different way of thinking, national lifestyle adjustments & a results oriented national focus.

The primary concerns that Civil Society Bahamas wishes to represent for consideration, were birth out of (a) a national need for Tri-part Good Governance and (b) development of
a consultative and inclusive non-partisan national development plan reflective of our constitution as follows:

1. The Preamble

The Preamble of the Constitution of the Bahamas speaks to “the preservation of freedom”, “an abiding respect for Christian values”, and the “Rule of law” all guaranteed by a national commitment viewed by Civil Society Bahamas as critical and demanding a “National Plan - Tri-part Governance Partnership”.

Therefore, we endorse fully the Preamble of the constitution of The Bahamas in conjunction with a National Plan for the balanced and sustained national development of the “People of The Family of Islands”.

This is to be encouraged through the following areas consisting of Priority Family Focus - marriage between male & female, Educational Focus – higher learning national education system, Business & Commerce Focus - national standards &
procedures for accountability of projects through systematic process management, Media Focus – responsible and relevant freedom of the press, Arts & Entertainment Focus – sustained quality cultural expression, Good Governance Focus - tri-part consultative and inclusive non-partisan national leadership.

2. Executive Powers

It is a critical objective of well meaning individuals for both themselves and other members of the Bahamian Society that efficient, effective, accountable, professional and democratic governance is executed by the National Leaders in particular, the Prime Minister of the Bahamas and Cabinet Members.

Therefore, Civil Society Bahamas recognizes the urgent need to reconcile executive power in our Bahamian democracy as a priority for the Bahamas.
The expressed expectation for a **tri-part national governance plan** and a greater power sharing, decentralization, openness and accountability **to eradicate apparent corruption and conspiracy as an accepted culture** must also be inclusive of the Official Opposition and its quality of leadership.

(a) **The Prime Minister:**

Civil Society Bahamas supports the view of limited tenure and **recommends** that a Prime Minister should serve in that office for a period of no more than two consecutive terms, which is not exceeding in the current system ten (10) years.

(b) **Appointments by The Prime Minister:**

The office of The Prime Minister currently has too much control by way of appointments to key positions as recognized by Civil Society Bahamas. Therefore, it is our **recommendation** that key national positions be to civil servants or public officers and not political appointments.
guided by results orientated performance based tenure (Attorney General responsible for criminal prosecutions and other such technical positions – Auditor General having direct control of his staffing and vested in the constitution to encourage results orientated operations - Ombudsman system introduction).

(c) **Independence of the Judiciary:**

The above recommendation is supported with the appointment of an in Cabinet Minister of Legal Affairs, having the direct support of a qualified technical legal officer (unique government legal advisor) to facilitate greater delivery of justice to the community and facilitate independence of the Judiciary.
(d) **Independent Constituencies Commission:**

Civil Society Bahamas is in support of an independent constituency’s commission that will reflect a cross section of individuals from civil society. This is critical to eradicate as much as possible the question of apparent gerrymandering of constituencies as it is protected by the constitution.

1. **The Senate**

Civil Society Bahamas recognizes the apparent challenge of the national decision making process, which appears to be shrouded in secrecy as important decisions are taken on serious issues without the general public or civil society being aware that these issues are being discussed.

The senate in our current governance structure appears not to be as effective and perceived by civil society in many instances to be a rubber stamp.
2. **Parliamentary Term**

In conjunction with a comprehensive national plan of tri-part partnership and governance, the constitution should provide for a **fixed date for General Elections encouraging performance based accountability.**

3. **Death Penalty**

Civil Society Bahamas is in support of capital punishment as reflected in the laws of The Bahamas for enforcement. Additionally, as expressed in the wider civil society community, expanded methods may be engaged for its execution.

**Conclusion**

Mr. Chairman and members of the Commission, thank you for the opportunity to make a contribution on behalf of Civil Society Bahamas as we anticipate a great future for the
“People of the Family of Islands” and the Nation of The Bahamas.
